Pedestrian Ramp Improvement Project Begins in Cook, DuPage and Kane Counties

CHICAGO – The Illinois Department of Transportation (IDOT) announced that sidewalk and bike lane closures will take place on various state routes in Pingree Grove, Hoffman Estates, Streamwood and Hanover Park, for a pedestrian ramp improvement project, beginning, weather permitting, Monday, August 22.

The closures are part of a larger project to reconstruct existing sidewalk pedestrian ramps to make them compliant with the Americans with Disabilities Act requirements in Cook, DuPage and Kane counties. Temporary lane closures also will be necessary adjacent to sidewalk ramps while work is in progress.

The following closures will take place from Monday, Aug. 22 to Wednesday, Aug. 31:

Pingree Grove

- Sidewalk at the southwest corner of Illinois 72 and Western Boulevard
- Sidewalk at the southwest corner of Illinois 72 and Richard Brown Boulevard

Hoffman Estates

- Sidewalk at the southeast corner of Barrington Road and St. Alexian Medical Drive
- Bike path ramps at the northwest and southwest corners of Barrington Road and Golf Road

Streamwood

- Sidewalk at the northwest and southwest corners of Barrington Road and N. Green Meadows Boulevard
- Sidewalk at the northwest corner of Barrington Road and Williamsburg Drive

Hanover Park

- Sidewalk at the northwest corner of Barrington Road and Brandy Parkway
- Sidewalk at the northeast corner of Barrington Road and Tower Drive
- Sidewalk at the northeast and southeast corners of Barrington Road and Bristol Lane

Pedestrians and cyclists should follow closure signs. Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.
